Best & Worst Single-Day Moves

Largest one-day close-to-close swings

Company	Best Day	Change	Worst Day	Change
Ford	2022-01-04	+11.67%	2022-02-04	-9.70%
GM	2021-01-19	+9.75%	2021-08-04	-8.91%
Tesla	2021-03-09	+19.64%	2021-11-09	-11.99%

★ Tesla swings hardest in both directions (+19.6% / -12.0%) — it's the highest-risk, highest-reaction stock of the three on any given news day.

Return Correlation

Daily return correlation coefficient

	Ford	GM	Tesla
Ford	1.00	0.76	0.22
GM	0.76	1.00	0.25
Tesla	0.22	0.25	1.00

★ Ford and GM move together (0.76) — same sector, same macro drivers. Tesla is only weakly correlated with either (0.22 / 0.25), so pairing Tesla with a legacy automaker offers real diversification.
